## INTRODUCTION.

---

IN presenting our patrons with the fourth volume of the MAINE STATE JERSEY CATTLE HERD BOOK, we favor them with a book containing the pedigrees of six hundred and sixty-five animals, and the transfer of two hundred animals registered in this work, forming a published work of two thousand and eighty-eight pedigrees.

This work affords a reliable, convenient and inexpensive record of the lineage of Jersey cattle, compiled in a concise form, avoiding unnecessary and complicated rules; at the same time, no pains have been spared to ensure accuracy.

Many of the patrons of this work, by strict adherence to the fundamental principles of breeding, have produced individuals, families and strains, of superior merit, proving of more practical value than imported animals.

And while it is gratifying to know that there is an increasing tendency among our patrons to more careful breeding, the Association, in its corporate capacity, will continue to act under such rules as will insure a still greater tendency in this direction.

THE PRESENT ORGANIZATION  
OF THE  
Maine State Jersey Cattle Association,  
INCORPORATED BY ACT OF LEGISLATURE OF 1875,  
WITH ITS  
PLACE OF BUSINESS FIXED AT WINTHROP,  
CONSISTS OF TWO HUNDRED AND SEVENTEEN MEMBERS.
